Changes in aquamet

March 10, 2015

CHANGES IN aquamet VERSION 2.3 (Released 2015-03-10)

NEW FEATURES:

- Modified function `fishMet` to determine whether variable ANOM_CT exists among the input counts and, if not, set ANOMPIND equal to missing.

BUG FIXES:

- None.

CHANGES IN aquamet VERSION 2.2 (Released 2014-05-28)

NEW FEATURES:

- Added an index.html file to the doc directory so that files in the directory can be viewed from the package help page.
- Added datasets to the data directory for use by help page examples.

BUG FIXES:

- None.

CHANGES IN aquamet VERSION 2.1 (Released 2014-04-15)

NEW FEATURES:

- Added improved help directory documentation files for NRSA metrics.

BUG FIXES:

- None.

CHANGES IN aquamet VERSION 2.0 (Released 2014-03-18)

NEW FEATURES:

- Added functions to calculate invertebrate and fish metrics for NRSA.

BUG FIXES:

- None.

CHANGES IN aquamet VERSION 1.0 (Released 2013-01-30)

    NEW FEATURES:

- This is the original version of the package. It calculates physical habitat metrics for the National Rivers and Streams Assessment (NRSA).

    BUG FIXES:

- None.
